EVENT REMINDER! JULY 18, 6-8:30PM, DOORS OPEN 5:30, BLOCK 41
HEALTHY & SAFE STREETS FOR ALL - SAFETY FORUM View as Webpage

BLOCK 41 | 115 Bell Street | Healthy & Safe Streets For All
Doors Open 5:30 PM | RSVPs Requested - Submit Questions

In 2022, violent crimes and car thefts reached a 15 year high citywide. Verified criminal shootings and shots fired incidents increased 19% compared to 2021, 69% compared to 2020, and 125% compared to 2019 data. The majority of homicide victims died from gun violence.

In 2Q 2023, the Mayor's Downtown Activation Plan was released, the Fentanyl Systems Work Group was established, KCRHA's revised 5-year plan was released, and the Community Violence Task Force was recently announced to stem the tide of gun violence.
How will these and existing plans be implemented to provide data driven, measurable results that promote health and safety for all? Join us at Block 41 to hear from subject matter experts on critical issues. Submit questions here.

Event Moderator: Professor Jacqueline Helfgott, PhD, Director, Crime & Justice Research Center, Seattle University
